About

Computer Science undergraduate with hands-on experience building full-stack web applications using JavaScript, Node.js, Express.js, SQL, and Supabase. Experienced in developing REST APIs, authentication systems, admin dashboards, database-driven applications, and responsive user interfaces. Strong foundation in Data Structures & Algorithms, DBMS, Computer Networks, and Object-Oriented Programming. Seeking a software development internship to apply technical skills to real-world projects.

EDUCATION

Model Institute of Engineering and Technology (MIET) **Jammu, India**

Bachelor of Technology in Computer Science Engineering *Expected Graduation, July 2027*

- **Relevant Coursework:** Data Structures and Algorithms, Computer Networks, Artificial Intelligence, Data Science, Object-Oriented Programming, Operating Systems.

Government Higher Secondary School (JKBOSE) **Jammu and Kashmir, India**

Higher Secondary (XII), Science with Mathematics *2019-2021*

EXPERIENCE

National Institute of Technology (NIT), Srinagar

Web Development Intern | *Summer 2026*

- Developed responsive web applications using HTML, CSS, JavaScript, and Bootstrap.
- Worked on frontend UI development and dynamic web pages.
- Applied Git, version control, and deployment practices while collaborating with mentors.

National Institute of Technology (NIT), Srinagar

IOT Intern | Summer 2025

- Worked with sensors, microcontrollers, connected devices, and IoT communication concepts.
- Explored real-time data collection and device interaction using IoT components.

PROJECTS

Wazwan Restaurant – Full-Stack Restaurant Management System | Live Demo

Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, Supabase, PostgreSQL

- Developed a full-stack restaurant platform with a responsive customer website and admin dashboard.
- Implemented online food ordering, table reservations, menu management, promotional offers, and contact messaging.
- Built backend APIs using Node.js and Express.js with Supabase PostgreSQL for database management.
- Implemented customer authentication and role-based admin access.
- Deployed the application using Netlify and managed source code with Git/GitHub.

Full-Stack Inventory Management and Sales Optimization System

Team Lead | June 2025 – July 2025

- Built a full-stack inventory and sales management application using Node.js, Express.js, and MySQL.
- Developed REST APIs for product, customer, inventory, and sales operations.
- Implemented real-time inventory updates, low-stock detection, and SQL-based sales analysis.
- Created a responsive dashboard to monitor inventory and identify top-selling products**.**

SKILLS

Languages: C++, Python, JavaScript, SQL, C Programming
Web: HTML5, CSS3, Node.js, Express.js, REST APIs, Bootstrap, React.js (Basic)
Databases: MySQL, PostgreSQL, Supabase
Tools: Git, GitHub, VS Code, Postman, Netlify, MySQL Workbench
Core: Data Structures & Algorithms, DBMS, OOP, Computer Networks, Operating Systems, Database Design & Normalization
Libraries: Pandas, NumPy

CERTIFICATIONS

Data Analysis with Python – IBM
Machine Learning with Python — IBM
Internet of Things (IoT) Internship Certificate — NIT Srinagar
